(1) From the beginning of Q2 2020, includes the impact of the transitional arrangements for expected loss provisioning (ELC) announced by OSFI in March 2020. The transitional arrangement results in a portion of expected credit loss allowances. A portion of expected credit loss allowances with transitional adjustment is included in CET1 capital, otherwise it is included in Tier2 capital. This amount is adjusted for tax effects and subject to a scaling factor that will decrease each year until 2022.
